SKILLS

Security Governance | Threat Intelligence & Incident Response | Gen AI Security | KRIs | Emerging Technology Risk
Technical Proficiency: Vulnerability Management | Security Investigations | Governance | Risk Reporting
Tools: MCP | Langchain | Langgraph | Splunk | MS Excel (Advanced) | Jira | Confluence | Cloud Security Tools
Languages & Databases: Python | SQL | Bash | JavaScript | SQL OS: Windows | macOS | Linux
Soft Skills: Bilingual (English & French) | Stakeholder Management | Strong Communication | Adaptability

EDUCATION

Concordia University, Montreal, Quebec, Canada (Co-Op Student)	Sep 2024 – Present
• Master of Engineering- Information System Security (INSE) GPA: 3.91/4.30	
Manipal University Jaipur, Jaipur, Rajasthan, India	Aug 2020 – Jun 2024
• Bachelor of Technology- Computer Science & Engineering CGPA: 8.68/10	

INTERNSHIP EXPERIENCE

American Express, Toronto	May 2026 – Present
Intern I (Summer Internship)	
• Studied currently existing Identity and Access Management workflows and produced documentations on them for use throughout the enterprise.	
• Analyzed Policy Engines and built agentic workflows integrated with Policy Engines for stable and deterministic Agentic AI actions.	
TMX Group, Toronto	Sep 2025 – Dec 2025
Jr. Security Operations Analyst Intern (Fall Co-op)	
• Designed and executed context-aware social engineering campaigns (Whaling, Credential Harvesting) to assess and improve the human defense layer against sophisticated financial sector threats.	
• Analyzed Key Risk Indicators (KRIs) to identify vulnerability patterns among C-Suite and critical staff, implementing targeted educational strategies that decreased credential compromise rates.	
American Express, Toronto	May 2025 – Aug 2025
Information Security Analyst Intern – AI & PQC (Summer Internship)	
• Implemented cybersecurity initiatives across domains including threat intelligence, and generative artificial intelligence.	
• Spearheaded research and development efforts GenAI security enablement.
